Website Features... Always Adding More

There is a lot of county history that people have worked on over the years. If you hunt for it, you can find it in many posts and websites. We have been working to make finding local history easier by putting documents, videos, and links in one place on our website.

To see what is available, you can go to our website, click on the Features tab, then click on "More from CCHS and the Community". Whenever we find something local, we put it there.

Just some of the history available

Be a Front Door Greeter for Us This Summer!

Meet Barb and Dennis Cook from Stockbridge. They are lifetime members of the Calumet County Historical Society and also volunteer greeters for a couple of Sundays in the summer.

There is nothing stressful and no hard work is expected from our greeters. You don't even have to be a member. It is as simple as welcoming guests and explaining to them how to navigate our museum. You will have time to spend looking around and checking out the museum yourself. We have a lot that might interest you.

There is no need to be an expert on anything, but you might be surprised on how much you have to offer. You will be working with a seasoned member who can manage all details and questions. We just need a few more people around making our guests feel welcome.
